Popis

The GG1050J upgrades the GG1050 with intuitive joystick controls for smoother, more precise operation. At 1000 kg with a Koop 192F engine (7.2 kW), movable arm, and expandable tracks, it offers a modern operating experience at a competitive price. Perfect for operators who prefer joystick handling over traditional levers, especially those transitioning from larger machines. A smart choice for rental fleets seeking operator-friendly controls that reduce training time.
